

# MASTER THROTTLE CABLE GRIPPER

Do you question the reliability of your throttle cable attachment method?

Does throttle cable attachment take too long?

- the first easy mount throttle cable attachment mechanism
- attaches on most throttle pedals (for 1.2mm (.050") throttle cables)
- offers a spherical axis of motion
- a quality component that works
- make replacing damaged throttle cables a thing of the past

The **MASTER THROTTLE CABLE GRIPPER** is a precision machined component designed to grip the throttle cable and not destroy the cables integrity. It allows you to repeatedly adjust it without breaking or deforming the cable. Designed to attach on most throttle pedals, installation is quick and throttle cable adjustment is fast and positive. Machined from stainless steel, this component is durable and resistant to corrosion. All mounting hardware is included.
